## My Kind O’ Lovin’

1/ Staring at you just to feel right,  
Gazing to search for your light  
Hoping you mean what you whisper  
Knowing this brings back the life.

2/ And as the night comes along,  
I figure the senses stay real.  
Time to accept ego’s evanescence,  
Enlightened I get to life’s essence.

Br.: My kind of lovin’ you used to see at night,

Has simply got me running back against the tide,  
Ready for tomorrow  
Finding truth in 'beauty set', as taught to get  
To the soul I'd barely known

Rf: Hopin' to sense that I'm free.  
Hopin' to learn from the learnin' (that's me)  
Got to hold on endlessly  
But with the thought you're with me...

## Friends

1/ If I would see no limit  
It's because I lean on you  
Apparently my thoughts exhibit  
Things, I wanna do

Br.: And if I miss you it's because  
The weakness comes along  
Although I know you're always mine  
And that's what makes me strong

2/ If I'm to fly so high  
It's always, heading to you all  
We've been together for so long  
So making problems small

And if I try another challenge  
You go along with me.  
No matter what the hardships

Things get well as it used to be

Rf (main vox), Rf (backing vox-counterpart, Middle part):

And I'll be free with you forever / Indeed, you have to know it's true

And I'll be free with you forevermore

And indeed you have to know it's true for sure

If I'm with you I do endeavour

To show the love I'm bound to feel for you.

If I'm with you I do step inside right now (and you all know)

My love is true, and that's what I find in you

I wouldn't sleep all night, 'till I reveal this through

That every now and then I've lived for you

3/ On trails that never cross

You find a way to always be

Reducing any loss

Your energy is there for me

Br/ I don't see you often,

But we're so much bound in space,

To bring me courage,

Faith to blossom

Thoughts to leave a trace...

Rf (main vox), Rf (backing vox-counterpart, Middle part): And I'll be free with you forever /  
Indeed, you have to know it's true

And I'll be free with you forever

Indeed you have to know it's true for sure

If I'm with you I do endeavour

To show the love I'm bound to feel for you.

If I'm with you I do step inside right now (and you all know)

My love is true, and that's what I find in you.

I wouldn't sleep all night, 'till I reveal this through

That every now and then I've lived for you

## No One Can Deny It

I used to try it on and on

Used to find it good

That you come home to me

I still see my love move on

You can find me

Still simply running home

There's no other place for me

Kids are running, laughing

This is all you hear

Only when I'm home it's me

It's easy goin'...

No other truth to be

Rf: No one could deny it

No one ever tried

Feelin' good when I am near you

Simply getting nothing

But the essence of life

Getting happier, yeah, and I do

Mid. Part: Cause she's the one with whom I'd stay...

Kids are our sweet pride and joy

An it looks like having all that we'd enjoy (yeah, yeah)

You see she's getting me the thrill...

That I've always tried to get

And all you get is just one love

We can't forget

## Get Into Real

If you take no evening

On your own so far

Then you simply got the feeling

Of having no trace of love

2/ If you try to bear (though)

Faithfulness instead

Would it hurt or would it be the

Stressing thing you'd never get?

Br.: If you get the feelin'

of your spirits high

Is it not the thrilling thing that

so far always passed you by

Rf.: Get into real, get into real

Thing, that's running through you 'till you start to shiver

Anything lively would just matter to feel,

I guess you're ready to hear (hear me now)

3/ Have you ever tried to find

A cause you would adore

Meaningful things build your life

So be a part of it for sure.

Mid Part I: Ain't there a better place within your mind?

I bet you're someone else under its command

Mid Part II: She's no companion

It's simplified to share

The girl you love is to point out that's fair.

Your mind is creation.

Your soul is to glow.

Its advice ain't bad so let it show.

## Simple game

I get to see no feelings

While love was what's to find

'Till recently believing

That things were just alright

Br/ Simple game, but not to me

And soon appeared on sight

That attitude was simply not alright.

It ain' bad just doin' right.

Gets to holding on...

So finally successfully go on.

Rf/ Any day love's on my mind

(Easy playin' I can find)

Possessing you in terms of that

(I must be strong, I got it right)

But misleading is no way to have you

(Makes me feel you're so much bound to hold on).

3/ My own way

Of getting this conclusive

Is one to understand

That love is letting your babe

Accomplish what she planned

Br/ Any day, you let her view

Your love is unconditioned too

And her lifestyle is just not meant to please you

Simple game, no one's to blame

Just another truth of life  
To focus on, so love's not out of sight.

Finale: Simple game  
But it's so much our life  
There is no frame  
It's simple, straight, that's right

# Happiness

1/ It's hard to be the one at all  
Goin' back to world of silence  
Just imagine you enroll  
All your dreams deleting violence

2/ Many things will pass you by  
Many times not getting started  
Knowing though you found your line  
Lets you in the gates you charted

Mid Part.: Happy days we wish for everyone  
Whish you've always had a real friend

Whom you rely on  
Now however one thing we must know  
If we don't live for each other

That's no life at all  
(2nd time in the 'a cappella' part:  
We're now living for each other – it's our life, that's all)

Rf.: We just want some happiness for all  
We just want to see your joy (wanna joy for everyone)

3/ In this world we wanna live  
That's the place of our dreaming  
Knowin' certainly that we're  
Bound so much to its own livin'

Rf/... Yes, you gotta see, that's what we want, you gotta feel it

That's the way we feel our happiness  
Happiness...

## Things We Can't Do

1/ And in my mind, I've seen that grace  
That comforts me, I'm longing for  
It is the true eternity  
That covers me, I got no more

2/ And so I get to see you all  
And see the rays that shine along  
To find there is no search no more  
What matters is to have you all

Rf/ If I could get along with you on that  
It's possibly my kind  
To open up the secrets

You're possessing in your mind  
(It is good we try to see them all

And find out what is true)  
It is so good I try to find you (to find you all)  
(About the things we can't do)  
It's all about the things we cannot do

3/ You have your life in your own hands  
What you believe in happens next  
It is a matter of concept  
It's not per text of distant lands

4/ You finally see, there's nothing else  
That can't be seen & done by you  
Forget what people try to say  
I'm heading for it too

Mid Part/ And if I keep on searching

For what I'm longing for  
To catch up with eternity

To bring this life a little more  
And so I get to see you,

And raise the rays that shine.  
To find the search is surely over

By being by my side

# Time To Move Along

A/ You can't find another hero  
Then you go the way outside  
Then you see, that someone reached out  
Tryin' hard to get it right

You went there but what you found out...  
Wasn't just the thing you'd like  
You could be that someone else then  
Someone else that I don't mind

Rf: Time to spend it on  
Time to move along  
Time to spend it back together  
We could try to sing the same old song

Then we'll feel alright forever.

B/ Someone tries brand new approaches  
You just sit and join the band  
You possess the secret for this  
Rise to view your friends that kind

You won't waste another mornin'  
You won't see another guy  
Then you get your shelter  
Turnin' down that same old line

C/ (Mid Part) See what's there, see what's right  
You possess the things you guide...

Counterpart:

Time to/move it on/to move along/to be back/here to forever

We could try to sing/the same old song/ I think

Then we'd feel alright/then we would feel alright forever

## Love Song

1/ I wasn't sure

If it was something to endure

But there is one thing

I am sure I know

Oh, Love I need you so

I want you by my side so never go

2/ You're all for me.

For your love my life's meant to be

And there is something

I'm sure you know, oh girl I need you so

I want you by my side and never let you go

Rf.: I will, just sing a song for you

And I feel, you own my whole world, yes you do

Oh my sweet babe, I love you

3/ You're all for me

For your love my life's meant to be

Whatever I do, wherever I go, I see you my love  
Oh, I just can't think of missing you my love

## People On Fire

1/ The days keep passing long and grey  
For some of us that see no light  
It isn't right but who's to blame  
It is the mental charge to fight

2/ Many stories can be told  
About the ones, who see no chance  
About the men whose only fault's  
No meaningfulness to enhance

Rf.: So many people live on fire  
Help them now feel good  
It won't be hard just try it  
Their state of mind withstood

3/ Don't wonder if I tell you now  
There is no hardship for them there  
It takes the lending hand they found

By building lives or just to care

# Step In Learnin'

1/ Stand in the sunlight, expecting you there

You hardly appear but, all that I could bear  
There is no room for missing the thing you feel real  
So you are here ready to have me  
It's all that I feel

2/ There's no intention to stay out of line

My thoughts re-direct me to feeling so fine  
I guess you're creating my world and my life  
To have it all... I will be there  
I think that I care

Rf/ Step in learning... I got it right  
Step in learning... makes everything bright  
No concerning, to love you deep inside

Mid.P./ I keep on learning that heaven's no fiction

True love's so limitless to proving kind  
Then I've just realized glance no restriction  
I keep on learning it's so easy to find

Rf contra: And if I step in learning a feelin'

I step in learning them all  
A step in learning what's right  
And I find out/ deep inside the feeling  
That it's so fine with you

# Understand the morning

Dawning in your head  
Simply that it's goin'

The simplest way you get  
Born to sense the feelin'  
Stuck inside your soul  
Something that I'm reeling in  
My mind and that's my role

You've been quite of knowin'  
The best inside a man  
And it's the best way. Something eagerly exists  
The best way that it can

Rf: And in the meantime  
you might have gone insane  
It wouldn't matter, if you deny the pain

Rf: And you say maybe someday  
For once you touch the fame  
And you say maybe someday your day ('s on) comes

It would be time to get to know what fame is...  
Well, it don't really matter

You're miles ahead (of) that game  
Well satisfying, ego's not your aim

You're miles ahead(of) that game

# Conclusion

Ain't there a better place (you find)  
Within your mind (yeah it's all for you)  
It brings new sense of things inside  
(it makes the \_-whole \_-world better)  
You know where you belong  
This feeling's right (the thing's to get it)  
It's worth just living for – and so you might (In a minute)

She's no companion / it's simplified  
The girl you love is/ to point out

And deep inside your troubled mind/  
you know (you know it) where you belong  
It's the place where you can find (you go to)  
The real truth of your own

Your mind's \_-creation  
Your soul's to \_-glow, glow glow  
It's advice ain't bad/ so let it show

And your mind's creation, as your/ glowing soul

The place you get to/ delivers love, love, love/  
The place I mean's not hard to reach/ and it brings love

You live to get that feelin'  
There's nothing else above!

My Kind of Lovin'...
