## Intro

No matter how long I look  
No matter how hard I stare  
The desert sky is no desert  
It is blue sky  
I learned to see  
I saw the light  
It starts with me

# Mind Power

Once upon a time we knew, but somehow we forgot  
That good intentions within us arise out of our thoughts  
So realize that thoughts can be a precious force in you  
That through your mind you're making real  
Your very own successes, too!

Very often we would blame, when angry and stressed out  
Accusing strangers, friends and then hard life itself, no doubt  
For being unsuccessful yet, when really it's our mind  
Our consciousness is what creates  
The dream life that we long to find

Chorus

Feel the power of your mind  
2nd voice: Our thoughts within us  
Bringing the success you've dreamed of  
2nd voice: Create a new world inside  
We can change the world our kind  
2nd voice: Mind power helps us to influence all things  
Since we're sure and strong in our own thoughts right now  
2nd voice: Bringing us love and light  
Think positively free  
2nd voice: It's me deciding, I create  
A new determined me, you see?  
2nd voice: In our minds we should be

Happiness is not a myth; it is a state of mind  
Of the body and the soul, for when you're so inclined  
To let your thoughts create in you possibilities

To be exactly who you are  
And shine the light the world can see

## Two Hearts

Days and nights on end two hearts embrace  
And grope for memories that hide so deep inside them, seeking a trace  
Wishing time would simply slow its pace  
And hungering to peek inside themselves and see love's face

Miracles might just be what they find  
Somehow they steadily create them in their minds, they're granted like that  
All's within their grasp, it's theirs to last  
Everything, if they desire it...

Here they are, accommodating minds now  
As the source, from where abundance springs  
That's the way they know it grants them true love  
Everything they dream of can be theirs if they just think it...

### Chorus

And yet again they call  
They know that thoughts do all  
And yet again they call for all

Life is quite astonishing they find  
It all depends upon the way they choose to live it – and on their mind  
What you're focused on is what you get  
Doing good is rooted deep inside themselves – it fills their lives

Chorus

Feel the power, of your mind

2nd voice: Here they are, accommodating minds now

3rd voice: Our thoughts within us

Bringing the success you've dreamed of

2nd voice: As the source, from where abundance springs

3rd voice: Create a new world inside

We can change the world our kind

2nd voice: That's the way they know it grants them true love

3rd voice: Mind power helps us to influence all things

Since we're sure and strong in our own thoughts right now

2nd voice: Everything they dream of can be theirs if they just think it...

3rd voice: Bringing us love and light

And yet again they call for all

2nd voice: And yet again they call

They know that thoughts do all

## Love's Light Shining

Now I know

Inside me loud and clear I hear the call of sacred voice, blessed from above

There I go

The two of us are meant to be as one and I rejoice - it is our love

A dream come true, a dream of starting something new

Heading towards the future free

Into the blue, a cozy place just made for two

And I'm in you and you're in me, ooh yeah

Refrain

Love light's here to shine, and our hearts align, for love's so divine

2nd voice: And truly it starts to shine, and our hearts align aaah

Perfect joy is now mine, when our hands entwine and life is so fine

2nd voice: And this perfection is mine, and life is so fine

Now I know

I always keep on listening to this voice in good or bad, time after time

Then I see

You gave me hope and faith so I could share all that I've had, and my lights shine

All we do, our love it keeps on shining through

Our spirits freer than we knew

This good we've found,

It's time to spread it all around

And you're in me and I'm in you

Refrain +

Now I know

I always keep on listening to this voice in good or bad, time after time

Then I see

You give me hope and faith so I could share all that I've had, and my lights shine

Coda

Inside it's shining so bright/and our song's taking flight/and it wakes us at night/it must be love, yeah alright!

2nd voice:

Inside it's shining so bright and so clear and our song is taking flight

Wakes us at night, and it's alright, as our love is shining bright

I've got the world in my sights/ and I'm scaling the heights/ when you're there next to me/  
then love is all I can see!

## Max Rock

I'm sitting here filthy, shaggy, has-been flop  
It's Rock'n'Roll I'm playin'  
In my dreams I'm young and rich and at the top  
And someone else is payin'

I look for chicks who have a single skill  
When I take them home I simply get my fill  
I'm even fine with sleazy pop and it's excess  
I'll sell out all the Rock'n'Roll for love finesse

Chorus:

For love finesse  
I'll sell my very soul for some love finesse

These days there are some starlets, man, they are so hot!  
I'm half-intrigued and half-repulsed, but deterred – I'm not  
I lay it to 'em straight, now: "Look here, pussycat,  
Who cares about your brains when you've got legs like that!"

So why should I put up with raucous, tuneless shrieks?  
Instead I get my kicks with perfect hot physiques  
I'm never gonna stop now, I always take the best  
It saves my tired ears and gives my nerves a rest

Bridge to solo

And in this mind of mine, from fate there comes a sign  
So once again I'm getting all my thoughts in line  
You know just what we need now, yeah, to make it pay?  
A crazy rockin' solo, so get out of my way, hey-hey!

Of course I'd rather work with chicks who sing for real  
With perfect pitch and rhythm  
They're fine in other ways and put out on display  
What plastic surgeons give'em

So I help myself, picking out the best  
I take what I can handle, to hell with all the rest  
I'll be the first to tell you that I'm no artiste  
But Rock'n'Roll and hot chicks – I've got that at least!

## Fairytale

For you I am the true path, your way to joy  
For you I turn on all the light  
For you I stop at nothing, I soar so high  
In you there burns a flame so bright

Many days I wandered in fire and pain  
Knowing how I felt when I was trapped in lonely chains  
Many days I searched for love within my dreams  
But now I see it's here for real, it's right inside of me

Chorus

You will flow into me, we will flow into fairytale  
And who cares if it's make-believe, it still warms my heart  
And I hope that with you, we can make it come true wholesale  
Living this fairytale of ours - long awaited true love, ooh yeah

Today you made me see how the Universe  
It speaks in us in every way  
It chose to show all others with our true love  
Its grandeur ours now to display

Many days I wandered in fire and pain  
Knowing how I felt when I was trapped in lonely chains  
Many days I searched for love within my dreams  
But now I see it's here for real, it's right inside of me

Bridge

All the best within you, make it part of me  
Let me slip inside them, all your thoughts and dreams  
Everything inside your heart I will not betray  
Let's make this fairytale come true for all of us today

## Rock 'N' Roll Is My Thing

Yeah, Rock 'n' Roll is my thing  
And I'll keep it going late into the night  
Yeah Rock is what I sing  
There's no doubt about it, rockin' feels alright

Yeah Rock 'n' Roll is my thing

Come on, rhythm section, play it loud and clear  
Let me hear you shout and sing  
Give me three cheers  
For the joy I'm bringing here tonight...

Refrain

And here I am, making a new band up  
I'm choosing, not losing, laying down the tracks  
And Rock is what I'm choosing  
Always gonna play it, never turning back

Now I'm ready to play you Rock 'n' Roll  
Oh, I'll bring you Rock' n'Rroll  
I wanna, I'm gonna bring joy to your soul  
'Cause I play Rock 'n' Roll, for you, yeah  
Oh yeah, for you I'll give my all  
I'm really, really ready to give you all I've got  
Yeah Rock' n'Roll is my thing  
Come on, rhythm section, play it loud and clear  
Let me hear you shout and sing  
And give me three cheers  
For the joy I'm bringing here tonight...  
For the joy I'm bringing here tonight...

Bridge to solo

Not only, not only in my thoughts right now  
I can change the world with this Rock'n'Roll, yeah-yeah  
I don't waste my time with morons  
Stupidity is catching like the flu  
You gotta feel this Rock tsunami

It's not for the fainthearted  
My hopes, yeah they all depend on you

## The Search

And in the search, the search for truth, I gather thoughts together like a sleuth  
And in the search, the search for love, I find it's you I can't stop thinking of

Late in the night, brand new reflections  
Slip in my dreams making me ready  
To understand your mane conceptions  
And to create love between us right now

Power in us and in our feelings  
Comes on its own, when we are searching  
When we're all set, steady and certain  
Our every dream allows us to fly so high

We own the world, once we can realize  
That faith in ourselves is faith in success too  
We have the chance with clear mental vision  
Seeing our world richer and full of love  
All that we see is just our viewpoint  
The mind itself is energy streaming  
Knowing this truth, inspiration comes easy  
Sure in our thoughts, we simply move on ahead

# Springtime

Birds are singing so clear  
Saying springtime is once more here  
With the sound of a dove  
We gaze at the face of love

Hear the sound of a stream  
You're into a loving dream  
With the blossoming boughs  
Love surges inside us now

## Chorus

With the birds of spring comes the love they bring  
It's inside us now, it's in everything  
Our light is shining above  
In perfect rhythm with songs they sing

With our thoughts pure and clean  
Respect is if in all dream  
The more goodness we seek  
We'll do better both you and me

## Bridge

You help me discover thrills hidden deep in me  
2nd voice: Hidden deep down inside of me  
You make me more open, faithful and oh so free  
2nd voice: Clear thoughts come easily  
Bringing us joy today  
Inside us you show the way

Making us so free to play

Counterpoint

I know you're inside me, springtime

You can fly so high, you're creating you and me

There is something fateful in you

You can touch the sky, I'll be there under your spell down

This is our time, spring is all they sing

## In Rhythm With You

You alone will lead me down the trail of truth

You alone will be there when walking days are through

You're the only one who reads me like a book

Got me seeing love now everywhere I look

Right now, right now, at this very time

I feel your life's in synch now perfectly with mine

I know that I can't stand it, being on my own

With you here beside me, I know that I've come home.

Chorus

I've caught your rhythm

Yeah, that crazy rhythm

Driving us so wild now, the whole night through

Say you're mine forever, always be together

'Cause I never met someone like you

Together you and I, we're locked in perfect time  
Took so long to find our in-synch paradise  
You alone will lead me down the trail of truth  
You alone will be there when the walking days are through

Bridge to the first solo

And when I think about you every now and then  
I want to be in rhythm with you once again  
So if that's my choice and that's what I decide  
Just guess who, just guess who shows up at my side, alright!

Coda

I know, you are my way  
Determined and in rhythm, you set my thoughts ablaze  
I've got one dream today  
To be in step with you now  
Until our final days

## Now I Know

Love is meant for weaklings, but I'm oh so strong  
So I thought until I saw the light, how could I be so wrong?  
So right now, let's talk this through, so there is no doubt  
I'm not tryin' to throw the blame around, just want this figured out

Chorus

A. Now I know what is there (Now I know just what love is)

Simply go anywhere

Now I know what love is there is no doubt, no more doubt

So it's time to finish with all that, there's no turnin' back

B. Now I know, yeah I know deep down in my soul

The life without love ain't worth living

You and I must decide, gotta go for broke right now

And leave behind our misgivings

All the sorrow I see, will it never end?

The whole time it's right before my eyes

The dream of love you send

So right now, let's erase this pout, so there is no doubt

I'm not tryin' to throw the blame around, just want this figured out

## New Rhythm

Sure, it's sometimes hard to put things into words

Still I'd like to try to share what I've learned

'Cause I'd love to see you cover

Infinite truths about this world of ours

That it's in our hands, let's recognize our powers

Let us put all the accents that matter

We get more of the things that we think about

When we see what we want in our mind's eye

And we focus on love, there's no doubt

Refrain

New rhythm breaking through

New rhythm yeah

When life is built on love so true

Life is built on love

New style and point of view

New style I rise up singing

When I rise up with strength anew

We are all unique and special in this place

Everyone's a star and everyone's an ace

When in our thoughts and in our mind's eye

We give out love and get one in return

And we grow rich quickly once we understand

Wealth is merely a humble blue ribbon

For the ones who are able to share

And to add to the value of their lives

And of others and treat them so fair

Refrain

Mental direction and vision

A dream that can go where it leads

Our goal in a life is to have a goal

'Cause the dream is not all that it seems...

Refrain

Yeah, I think our lovin' was there

Simply new it was you

In my thoughts it was you

A kind a lovin' to share

Oh, oh, (yeah) to share with you

It's comin' in through

# Love in the World

I want to melt into your gaze and never more return  
This sea of love it swallows me and then I can discern  
Everything awash in kindness  
It is all over you  
Everything in you is love  
Oh yeah, a sign from above

## Chorus

Nights with you /have made me sure that miracles occur  
2nd voice: Have made me sure/ that our passion will endure  
Days with you I have made me sure that love lives in this world  
2nd voice: In you true love lives in this world  
Nights with you have made me see that miracles can be  
2nd voice: Have made me see/that our passions set us free  
Days with you have made love's world appear for you and me  
2nd voice: Love's world appears for you and me

I know that I am with you now since you are in my thoughts  
For so long now I've seen your image  
And felt the joy you've brought  
And before I even met you  
In my mind it was you  
I knew that love's world was true  
I knew our love was so true  
Days never ending nights we are spending  
Love in this world is ours  
Before I met you, the image that shown through

Was love between you and me, ooh yeah

## Finale

Days and nights on end we've really tried  
With love to build a world in thought and sound  
A fable, a gentle guide

So we thank you all for keeping stride  
With what we heard, so let's review it now  
Just one more time

Chorus

Feel the power, of your mind  
2nd voice: Here they are, accommodating minds now  
3rd voice: Our thoughts within us  
Bringing the success you've dreamed of  
2nd voice: As the source, from where abundance springs  
3rd voice: Create a new world inside  
We can change the world our kind  
2nd voice: That's the way they know it grants them true love  
3rd voice: Mind power helps us to influence all things  
Since we're sure and strong in our own thoughts right now  
2nd voice: Everything they dream of can be theirs if they just think it...  
3rd voice: Bringing us love and light  
And yet again they call for all  
2nd voice: And yet again they call  
They know that thoughts do all
